

Future Family is the smart way to pay for fertility treatments with the goal of supporting patients on their journey.

Our founder, Claire Tomkins', own fertility journey led Future Family to design customized loans to save you time and money. We work with **Midwest Fertility Center** to combine all of your treatment costs into one easy monthly payment. You'll also benefit from Future Family's on-demand fertility coaching support from Registered Nurses, who are there to answer any questions you may have.

Prequalifying is easy and takes less than 2 minutes. Most importantly, it won't impact your credit score. To learn more and apply, [visit Future Family](#).

Benefits of a Future Family loan:

- Competitive low-interest rates (starting at 5.99%)
- No prepayment penalties
- Fund up to \$50k in as few as 48 hours
- Loans personalized to your specific needs and treatments
- Treatment costs simplified down to one easy payment
- Bill-pay management
- Personalized on-demand support team from fertility coaches
- Medication training, onboarding and Q&A sessions with your coach
- Financing options can include a friend of family member

* The purpose of this document is to illustrate what plan terms might be available to you and to show you what you might qualify for. You still must select a plan and complete full qualification before we calculate your actual plan terms. The plan amount, term length, APR and monthly payment amounts are estimates only and based on a 5.99% APR. Estimated rate is based on a variety of factors, including term of plan, amount of plan, credit history, income and other factors. Rates and loan amounts are subject to state restrictions.
